Notice: Dobsons COVID-safe Store Operations

Dear valued clients,

Please be advised that Dobsons continue to uphold government requirements for all in store transactions in relation to COVID-safe trading. As such, we are currently implementing the following measures to keep our staff and the wider community safe:

- Regardless of their vaccination status, all healthy patrons may enter our stores
- Mask use is mandatory at all times within the stores
- Density limits are in operation
- QR code registration is required upon entry for all customers

Upon reaching the 90% double dose milestone on **November 24th, 2021**, Dobsons are required to implement the following procedures:

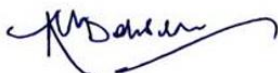

- All patrons, aged 16 years and over, who enter the uniform shop must be fully vaccinated or exempt, and proof of vaccination is required for entry**
- Mask use is mandatory at all times within the stores
- Density limits are in operation
- QR code registration will remain a requirement of accessing our stores for all customers

For customers who are unable to provide proof of vaccination, there will be an option of remaining outdoors and being served from the door.

As always, we remain committed to providing an outstanding level of service to your community and would appreciate your support in assisting us to uphold our obligations under the orders. If you could please ensure these requirements are communicated to your entire school community, we would greatly appreciate it.

Should you have any questions or concerns, please feel free to contact our head office on (03) 8788 7500 or sales@dobsons.com.au

Kind regards,

Alistair Dobson
Director
Dobsons Pty Ltd
